PRODUCTS FOR CONCRETE FORMING

Aljoma Lumber, Inc.

Aljoma Lumber brings its nationally known sales and service model to concrete forming. We have created a team of product experts whose sole focus is providing a complete range of products for concrete forming. Direct from one of our lumber yards or from the mill, Aljoma Lumber has the broadest range of wood-based forming products that help you get the job done right, pour after pour.

PLATED TRUSSES

- Designed and engineered to exact specifications
- Feature angled sides for ease of removal
- In-house design and support staff

BEAM SIDES AND EDGE FORMS

- Pre-built for greater convenience and lower cost
- Built to exact specifications in a factory setting
- Available in HDO, MDO or BB finish

DIMENSION LUMBER

Common Species

- SYP, SPF, Doug Fir
- Species varies based on regional availability

All grades and sizes available

Lacing Boards

- Commonly used as cross bracing

Lagging Boards

- Commonly used to build retaining walls
- Common sizes: 3x8 and 3x10 in 8' and 10' lengths

PANELS

HDO

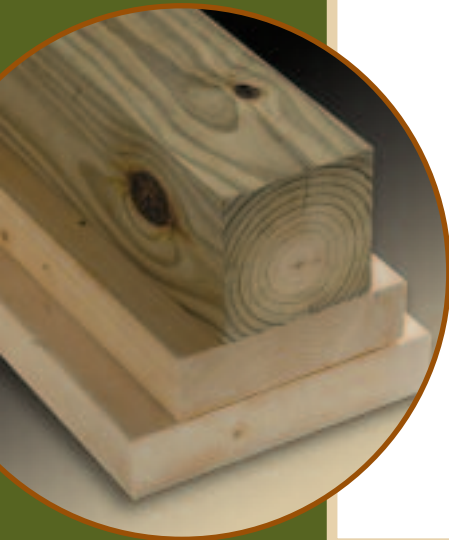

- Provides a paintable, architectural finish
- Common overlay configurations: 100/30 & 100/100
- Alternate overlay configurations available upon request
- 20-40 pours per panel

MDO

- Provides a paintable, matte finish
- Best used in multi-pour, repetitive applications
- Available in one and two-sided compositions
- 10-15 pours per panel

BBOES

- Most economical upfront cost
- Best used where finish is not critical
- Yields a coarse, woodgrain surface

PANELS (cont.)

PSF

- Provides a mirror finish
- Panels are two sided
- Overlays are unbleached Kraft papers with a typical weight of 26 lbs. and a resin content of approximately 64-66%
- Commonly used for concrete forms, treadmills and limited interior applications
- Non-certified panel

ENGINEERED WOOD PRODUCTS

LVL Forming Beams

- Outperforms solid-sawn lumber
- Resists shrinking, splitting and warping
- Spans greater distances, carries heavier loads
- 100% usable, no downfall or defect like wane or knots
- Available in variety of lengths, thicknesses and depths

Forming Boards and Pre-cast Panel Forms

- Resists twisting, bowing and shrinking
- Ideal for tilt-up walls
- Available in LVL, LSL and OSB
- Available in variety of lengths and depths

I-joist Forming Beams

- Ideal for forming of concrete slabs
- LVL or LSL beams and shores
- Available in variety of lengths, thicknesses and depths

Scaffold Plank LVL

- LVL outperforms solid-sawn lumber
- Superior durability and weatherability
- Resists twisting, cupping and bowing

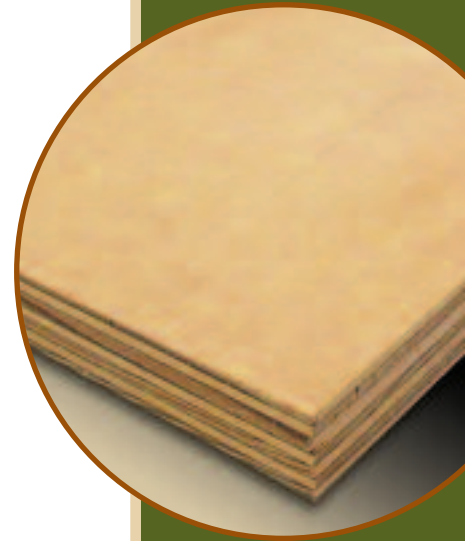

OTHER PRODUCTS FROM ALJOMA LUMBER

Pressure-treated Lumber

- Posts, timbers and plywood are available in a variety of treatments including ACQ, Borate and ProWood Micro, the latest technology in wood treatment

Wood Stakes

- Domestic and imported, grade stakes are a staple product for slab work
- Available in dozens of sizes

ABOUT ALJOMA LUMBER

Founded in 1976, Aljoma Lumber, Inc., manufactures, treats and distributes various wood products, building materials and specialty hardwoods throughout the Eastern U.S. and the Caribbean islands.

Primary products include:

- pressure-treated dimensional lumber
- pressure-treated and brite plywood
- fence pickets
- furring strips
- cut-to-size lumber and panels

Located in Medley, Florida, a suburb of Miami, Aljoma occupies 67 acres of land for treating and manufacturing as well as inventory storage space and future growth.

The people of Aljoma have a work ethic and collective determination unparalleled in the industry today. With nearly 200 employees working from this single location, Aljoma has become the leading pressure treater in Southern Florida.
